

2024 Dental Changes

Member Frequently Asked Questions

Nebraska Medicaid is making many improvements to dental coverage starting January 1, 2024. The changes aim to improve your access to dental care across the state.

As a Medicaid member, you will see the following changes to your dental coverage in 2024:

- 1. Wisdom tooth extraction:** Nebraska Medicaid will now cover wisdom tooth extraction if your dentist believes it would be beneficial to remove wisdom teeth that are not causing health issues but are likely to cause dental problems in the future. This will help you prevent dental-related health issues sooner rather than later.
- 2. Removing the annual dental benefit maximum:** The dental maximum currently limits most adult members to \$750 of dental care a year. Removing the dental benefit maximum will eliminate some barriers you face when accessing dental care.
